For rule 45 of the said rules, the following shall be substituted, namely :—

"45. A Local Government may make rules laying down the principles governing the allotment to officers serving under its administrative control for use by them as residences, of such buildings owned or leased by it, or such portions thereof, as the Local Government may make available for the purpose Such rules may lay down different principles for observance in different localities or in respect of different classes of residences, and may prescribe the circumstances in which such an officer shall be considered to be in occupation of a residence.

45A.—I. This rule applies, with effect from the 1st April 1924, to members of the services and the Government servants holding the posts included in the schedule to this rule and to Government servants who hold in a substantive capacity posts borne on the cadre of the services included therein.

II. For the purpose of the assessment of rents, the capital cost of a residence owned by Government shall include the cost or value of sanitary, water-supply and electric installations and fittings, but exclude the cost or value of the site (including expenditure on its preparation); and shall be either—

(*a*) the cost of acquiring or constructing the residence and any capital expenditure incurred after acquisition or construction ; or, when this is not known,

(*b*) the present value of the residence.

NOTE.—The cost of restoration or special repairs shall not be added to capital cost of present value, unless such restoration or repairs add to accommodation or involve replacement of the existing type of work by work of a more expensive character.

Provided that—

(*i*) a Local Government may make rules providing the manner in which the present value of residences shall be determined ;

(*ii*) a Local Government may make rules determining what expenditure is to be regarded, for the purpose of sub-clause (*a*) above, as expenditure upon the preparation of a site ;

(*iii*) a Local Government may, for reasons which should be recorded, authorise a revaluation of all residences of a specified class or classes within a specified area to be conducted under the rules referred to in proviso (*i*) above, and may revise the capital cost of any or all such residences on the basis of such revaluation ;

(*iv*) the capital cost, howsoever calculated, shall not take into consideration (1) any charges on account of establishment and tools and plant other than such as were actually charged direct to the work in cases in which the residence was constructed by Government, or (2) in other cases, the estimated amount of such charges ;

(*v*) a Local Government may, for reasons which should be recorded, write off a specified portion of the capital cost of a residence—

(1) when a portion of the residence must be set aside, by the officer to whom the residence is allotted, for the reception of official and non-official visitors visiting him on business, or

(2) when it is satisfied that the capital cost, as determined under the above rules, would be greatly in excess of the proper value of the accommodation provided ;

(*vi*) in assessing the cost or value of the sanitary, water-supply and electric installations and fittings, a Local Government may by rules determine what are to be regarded as fittings for this purpose.

III. The standard rent of a residence shall be calculated as follows :—

(*a*) In the case of leased residences the standard rent shall be the sum paid to the lessor *plus* an addition determined under rules which a Local Government may make, for meeting during the period of lease, such charges for both ordinary and special maintenance and repairs and for capital expenditure on additions or alterations as may be a charge on Government and for the interest on such capital expenditure, as also for municipal and other taxes payable by Government.

(*b*) In the case of residences owned by Government, the standard rent shall be calculated on the capital cost of the residence, and shall be either—

(*i*) a percentage of such capital cost equal to such rate of interest as may from time to time be fixed by the Secretary of State in Council *plus* an addition for municipal and other taxes payable by Government and for both ordinary and special maintenance and repairs, such addition being determined under rules which a Local Government may make, or

(*ii*) 6 per cent. per annum of such capital cost, whichever is less.

(*c*) In both cases standard rent shall be expressed as standard for a calendar month and shall be equal to one-twelfth of the annual rent as calculated above, subject to the proviso that, in special localities or in respect of special classes of residence, a Local Government may fix a standard rent to cover a period greater than one month but not greater than one year. Where a Local Government takes action under this proviso standard rent so fixed shall not be a larger proportion of the annual rent than the proportion which the period of occupation as prescribed under clause I above bears to one year.

NOTE 1.—For the purpose of sub-clauses (*a*) and (*b*) above, the additions for both ordinary and special maintenance and repairs shall not include anything for the establishment and tools and plant charges, except to the extent allowed under proviso (*iv*) to clause II.

NOTE 2.—A Local Government may by rule permit minor additions and alterations, the cost of which does not exceed a prescribed percentage of the capital cost of the residence, to be made during such period as the rule may determine, without the rent of the residence being increased.

IV. When Government supplies an officer with a residence leased or owned by Government, the following conditions shall be observed :—

(*a*) The scale of accommodation supplied shall not, except at the officer's own request, exceed that which is appropriate to the status of the occupant.

(*b*) Unless in any case it be otherwise expressly provided in these rules, he shall pay rent for the residence, and such rent shall be the standard rent as defined in clause III above or 10 per cent. of his monthly emoluments, whichever is less.

(*c*) Nothing contained in clause (*b*) above shall operate to prevent a Local Government from—

(*i*) grouping, after the standard rents have been calculated under the provisions of clause III above, a number of residences, whether in a particular area or of a particular class or classes, for the purpose of assessment of rent, subject to the following conditions being fulfilled :—

(1) that the basis of assessment is uniform ; and

(2) that the amount taken from any officer shall not exceed 10 per cent. of his monthly emoluments ;

(*ii*) taking a rent in excess of that prescribed in sub-clause (*b*) above from an officer—

(3) who is in receipt of a compensatory allowance granted on account of dearness of living.

V. In special circumstances, for reasons which should be recorded, a Local Government—

The tenant will also be required to pay meter hire and the cost of the water, electric energy, etc., consumed. A Local Government may make rules prescribing how the additional rents and charges shall be determined, and such rules may also authorise the remission or reduction of the additional rent or charge in special circumstances for reasons which should be recorded.

VII. A Local Government may by rule prescribe that this rule shall apply, with effect from any date not earlier than the first of April 1924, to any Government servant or class of Government servants other than those mentioned in the rule.

VIII. Nothing contained in this rule shall so operate as to require payment of rent, for the occupation of residences supplied by Government, by those servants of the Crown in India who have been exempted from such payment by order of the Secretary of State in Council, or to affect the amount of rent or charges payable by those servants of the Crown in India, in whose case the amount so payable is prescribed by the Secretary of State in Council.

45B.—I. This rule applies to Government servants other than those to whom rule 45A applies or is made applicable under the provisions of clause VII of that rule, or than those occupying residences belonging to a State Railway, or rented at the cost of railway revenues.

II. For the purposes of sub-clause (*b*) of clause III, the capital cost of a residence owned by Government shall not include the cost or value of such special services and installations (including furniture, tennis courts and sanitary, water-supply, or electric installations and fittings) as it may contain ; and shall be either—

(*a*) the cost of acquiring or constructing the residence, including the cost of site and its preparation and any capital expenditure incurred after acquisition or construction ; or, when this is not known,

(*b*) the present value of the residence including the value of site.

NOTE.—The cost of restoration or special repairs shall not be added to capital cost or present value, unless such restoration or repairs add to accommodation or involve replacement of the existing type of work by work of a more expensive character.

Provided that—

(*i*) a Local Government may make rules providing the manner in which the present value of residences, including sites, shall be determined.

(*ii*) a Local Government may make rules determining what expenditure is to be regarded for the purpose of sub-clause (*a*) above as expenditure upon the preparation of a site ;

(*iii*) a Local Government may, for reasons which should be recorded, authorise a revaluation of all residences of a specified class or classes within a specified area to be conducted under the rules referred to in proviso (*i*) above, and may revise the capital cost of any or all such residences on the basis of such revaluation ;

(*iv*) the capital cost, howsoever calculated, shall not take into consideration (1) any charges on account of establishment and tools and plant other than such as were actually charged direct to the work in cases in which the residence was constructed by Government, or (2) in other cases, the estimated amount of such charges ;

(*v*) a Local Government may, for reasons which should be recorded, write off a specified portion of the capital cost of a residence—

(1) when a portion of the residence must be set aside, by the Government servant to whom the residence is allotted, for the reception of official and non-official visitors visiting him on business, or

(2) when it is satisfied that the capital cost, as determined under the above rules, would be greatly in excess of the proper value of the accommodation provided,

(*vi*) in assessing the cost or value of the sanitary, water-supply and electric installations and fittings, a Local Government may, by rules, determine what are to be regarded as fittings for this purpose.

III. The standard rent of a residence shall be calculated as follows :—

(*a*) In the case of leased residences the standard rent shall be the sum paid to the lessor, *plus* an addition determined under rules which a Local Government may make, for meeting, during the period of lease, such charges for both ordinary and special maintenance and repairs and for capital expenditure on additions or alterations as may be a charge on Government and for the interest on such capital expenditure as also for municipal and other taxes payable by Government.

(*b*) In the case of residences owned by Government, the standard rent shall be calculated on the capital cost of the residence, and shall be a percentage of such capital cost equal to such rate of interest as may from time to time be fixed by the Secretary of State in Council, *plus* an addition for municipal and other taxes payable by Government and for both ordinary and special maintenance and repairs, such addition being determined under rules which a Local Government may make.

(*c*) In both cases standard rent shall be expressed as standard for a calendar month and shall be equal to one-twelfth of the annual rent as calculated above, subject to the proviso that, in special localities or in respect of special classes of residence, a Local Government may fix a standard rent to cover a period greater than one month, but not greater than one year. Where a Local Government takes action under this proviso standard rent so fixed shall not be a larger proportion of the annual rent than the proportion which the period of occupation as prescribed under clause I above bears to one year.

NOTE 1.—For the purpose of sub-clauses (*a*) and (*b*) above, the additions for both ordinary and special maintenance and repairs shall not include anything for the establishment and tools and plant charges, except to the extent allowed under proviso (*iv*) to clause II.

NOTE 2.—A Local Government may by rule permit minor additions and alterations, the cost of which does not exceed a prescribed percentage of the capital cost of the residence, to be made during such period as the rule may determine, without the rent of the residence being increased.

IV. When Government supplies a Government servant with a residence leased or owned by Government, the following conditions shall be observed :—

(*a*) The scale of accommodation supplied shall not, except at the officer's own request, exceed that which is appropriate to the status of the occupant.

(*b*) Unless in any case it be otherwise expressly provided in these rules, he shall pay rent for the residence, and such rent shall be the standard rent, as defined in clause III above, or 10 per cent. of his emoluments, whichever is less.

(*c*) Nothing contained in clause (*b*) above shall operate to prevent a Local Government from—

(*i*) grouping, after the standard rents have been calculated under the provisions of clause III above, a number of residences, whether in a particular area, or of a particular class or classes for the purpose of assessment of rent, subject to the following conditions being fulfilled :—

(1) that the basis of assessment is uniform, and

(2) that the amount taken from any Government servant shall not exceed 10 per cent. of his emoluments ;

(*ii*) taking a rent in excess of 10 per cent. of his emoluments from a Government servant—

V. In special circumstances, for reasons which should be recorded, a Local Government—

(*a*) may, by general or special order, grant rent-free accommodation to any Government servant or class of Government servants, or

CALCUTTA, *the 8th September 1927.*

CHAS. A. BENTLEY, M.B., D.P.H., D.T.M. & H., *Director of Public Health, Bengal.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 7th September 1927.

Summary.—During the week the rainfall was generally light excepting in parts of North Bengal, Mymensingh and the Chittagong Division where it was moderate to heavy. Transplantation of winter paddy seedlings continues, but more rain is still needed for the progress of the operation. Cutting of jute is proceeding, but want of adequate water for steeping and washing is still being felt specially in parts of North Bengal. Harvesting of autumn paddy is nearly over. The condition and prospects of standing crops have somewhat improved by the recent rain. Distress prevails in parts of the Rampurhat subdivision of the Birbhum district where test relief works have been opened and 400 persons are working daily since the 1st September 1927. The average price of common rice for the province has risen by about 0·63 per cent. as compared with that of the previous week.

RESOLUTION ON THE REPORT ON THE POLICE ADMINISTRATION IN THE BENGAL PRESIDENCY FOR THE YEAR 1926.

GOVERNMENT OF BENGAL.

POLICE DEPARTMENT.

Police.

CALCUTTA, THE 8TH SEPTEMBER 1927.

RESOLUTION—No. 4829Pl.

READ—

The report on the Police Administration in the Bengal Presidency for the year 1926.

Mr. T. C. Simpson, C.I.E., held the post of Inspector-General of Police throughout the year.

Eastern Frontier Rifles.—The efficiency and discipline of the Bengal Battalion were severely tested during the year when detachments, which were called upon to do duty in the disturbances in Calcutta, Kharagpur and elsewhere, proved of the greatest value in the maintenance and restoration of order. The Governor in Council has read with pleasure the messages of appreciation of the services of the Battalion sent to the Commandant by the Commissioner of Police, Calcutta, and the Officer Commanding 1st Battalion, Bengal-Nagpur Railway, and congratulates Major D. I. Macpherson on the state of efficiency to which he has brought the force under his command.

Strength and recruitment.—The Governor in Council has been struck by the large number of vacancies in the establishment of the police force and the consequent reaction on the health and contentment of the men owing to the frequent necessity of refusing leave. His Excellency in Council is also impressed by the fact that, in the opinion of the Inspector-General and his officers, men of the type desired are not presenting themselves for enlistment as constables. There can be no doubt that recruitment is affected by the low pay which contrasts unfavourably with the wages which can be earned in employments which involve less hardship and fewer restrictions on personal liberty than does service in the police force. The Governor in Council trusts that if proposals to increase the pay of the rank and file of the force are brought before the Legislative Council they will be examined carefully and sympathetically.

Health of the Force.—The health of the force showed no improvement on the previous year. The number of admissions to hospital was again very large. It has already been remarked that insufficient leave has contributed to this unsatisfactory state of affairs. Other causes are the low pay of the constables, bad housing and inadequacy of protective measures.

The proper housing of the police force is a matter of urgent importance, and the Governor in Council trusts that the Inspector-General will submit in due course complete self-contained proposals for providing the Bengal Police with adequate accommodation, wherever such is not at present available. Good housing will improve the health and efficiency of the police and prove economical in the long run.

Discipline.—It is regrettable that during the year there was a slight increase in the number of criminal cases brought by private individuals against members of the force and also in the number of convictions which followed. The fact that nearly half of the complaints were dismissed after a summary inquiry suggests that there is a tendency to bring false and

frivolous charges against the police. As such accusations are in many cases brought in order to obstruct investigation and prejudice the courts against investigating officers, the Governor in Council hopes that the educated public will accord to the Inspector-General the co-operation for which he has appealed in securing the punishment of persons who are responsible for bringing such charges. The exposure of investigating officers to reckless accusations is bound to have a bad effect on their morale and to react unfavourably on their work.

Police Training School.—The Inspector-General has remarked on the unsatisfactory result of reducing to three months the period of training which recruits undergo at the school. It has been satisfactorily proved that training in the districts is a very poor substitute. Having regard to the type of man now offering himself for enlistment and the high standard of discipline demanded of the force, the Governor in Council is convinced that nothing short of a six months' course at the school can be regarded as at all adequate, and agrees with the Inspector-General that the question of expanding the school demands immediate consideration. His Excellency in Council is glad to learn that the health of the men under training was good and congratulates the Medical officer on the excellent work which he has done.

Crime and detection.—The continued decrease in the number of cognisable cases including a fall of about 23 per cent. in the number of burglaries and about 16 per cent. in the number of thefts, is very gratifying. While it is possible that reluctance on the part of persons living at a distance from a police-station to report occurrences in which they have been the victims is, in some degree, responsible for the decrease, the Governor in Council thinks that it is reasonable to attribute it generally to the organisation of patrols, the use of the preventive sections of the Criminal Procedure Code and vigorous action under the law relating to the criminal tribes and gangs. The increase in the number of village defence parties has undoubtedly contributed to the reduction of offences against property, and the Governor in Council has read with great interest the account which the Inspector-General has given of good work done by such parties in the prevention of crime and in the arrest of suspects. The Inspector-General has dealt at some length with the number of acquittals of persons sent up for trial in cases reported to the police, but it will be seen from his report that in the percentage of convictions Bengal compares very favourably with other provinces.

Revolutionary crime.—The value of the powers conferred on Government by the Bengal Criminal Law Amendment Act is demonstrated by the contrast between the years 1923-24 with their long tale of outrages, and the period which has elapsed since the Act was passed. Vigilance on the part of the officers of the Criminal Investigation Department ending in the discovery of arms and ammunition in the possession of terrorists undoubtedly prevented a fresh series of outrages.

Communal friction.—The riots in Calcutta had repercussions in the mufassal, particularly at Pabna, Dacca and Kharagpur, which subjected the police force to the severest strain. The Governor in Council is satisfied that in these disturbances the difficult task of restoring order was carried out by the police with firmness, tact and impartiality in the face of considerable obstruction and malicious criticism.

Rural Police.—The Governor in Council regrets to note that there has been a further increase in the number of instances in which village chaukidars and dafadars were suspected to have participated in offences against property. He desires to repeat what was said last year about the necessity of selecting good men for appointment as village watchmen. He again requests Commissioners and District Magistrates to urge on union boards the advisability of raising the pay of these men. The Governor in Council observes that the Inspector-General has again complained of a falling off in the amount of information conveyed to thana officers by the rural police. The Inspector-General has attributed this to the partial transfer of control over chaukidars to union boards. His Excellency in Council does not at present

share the pessimistic view of the Inspector-General that this transfer of control will permanently interfere with the efficiency of the forces operating for the prevention of crime. In the present stage of transition, a president of a union board may be more eager to assert the importance of his position *vis-a-vis* that of the thana officer than to assist him, but His Excellency in Council hopes that, with the development of union boards and the increase of their activities in matters relating to sanitation and communications, the presidents will recognise the value of co-operation with the highly trained officers of the police force and will realise the necessity of furnishing them with any information which may be of value to them in the prevention and detection of crime.

His Excellency in Council has read with pleasure the list of officers whose good work has been brought to his notice and thanks Mr. Simpson for the energy and efficiency with which he has directed the police administration in the Presidency.

ORDER.—Ordered that copies of the resolution be forwarded to the Inspector-General of Police, Bengal, the Commissioner of Police, Calcutta, and all Commissioners of Divisions, for information.

Ordered also that the resolution be published in the *Calcutta Gazette*.

No. 10595A.—The 16th September 1927.—Whereas the validity of the election of Maulvi Abdul Gofran by the Noakhali West (Muhammadan) constituency as a member of the Bengal Legislative Council has been brought in question by an election petition duly presented by Haji Abdur Raschid Khan, under the provisions of Part VII of the Bengal Electoral Rules ;

And whereas in accordance with the provisions of rule 45 of the said rules, the Commissioners appointed for the trial of the said petition have duly submitted their report to the Governor.

(1) to declare that Maulvi Abdul Gofran has been duly elected ;

W. D. R. PRENTICE,

In the matter of an election petition under Part VII of the Bengal Electoral Rules.

Haji Abdur Raschid Khan ... ... *Petitioner*

versus

Maulvi Abdul Gofran [elected to the Bengal Legislative Council from the Noakhali West (Muhammadan) constituency] and another ... ... *Respondents.*

Report.

The petitioner filed an application to have the election of the Respondent Maulvi Abdul Gofran set aside on various allegations of corrupt practices on the part of the latter to secure his election. Notice of this application with a copy of the petition was sent for service on each of the respondents, and the application was also published in the *Calcutta Gazette*. Respondent No. 1, Maulvi Abdul Gofran, appeared by pleader. To Respondent No. 2, the notice with a copy of the original petition was sent to his residence in the town of Noakhali. He was not found at home and the notice and the copy were affixed in his Baitakhana *ghar* on the 4th March 1927. The service not being considered sufficient, a fresh notice was served on 15th March 1927. This time, the brother of Respondent No 2 Mr. Obaidulla gave his Calcutta address, and again a notice was sent by post under a registered cover. This time the notice was taken by a third party and a fresh notice was again sent by post under a registered cover. On this occasion the acknowledgment purported to have been signed on 31st March 1927 by Mr. Obaidulla himself and the service was considered sufficient. Mr. Obaidulla, however, did not enter appearance in the case.

Maulvi Abdul Gofran, Respondent No. 1, filed a written statement on the 2nd April 1927, denying the truth of the allegations about corrupt practices made in his petition by Haji Abdur Raschid Khan and issues were formed in the presence of the pleaders of both sides. The petitioner informed the Commissioners that the number of his witnesses would exceed 300, and out of this number 278 were of Noakhali. The petitioner prayed that one of the Commissioners might be deputed to examine these witnesses at Noakhali. This application was opposed by Respondent No. 1. The Commissioners considered that the examination of such large majority of witnesses by one Commissioner in the absence of the others was not desirable and the prayer was refused. Then the petitioner cited 242 witnesses, while Respondent No. 1 cited 317 witnesses. The witnesses cited by the petitioner were actually summoned by batches for successive dates, while the Respondent No. 1 was to take out summons for his witnesses for attendance from the 9th May. The hearing was to commence on the 28th April, on which date, the petitioner filed a petition for withdrawing the case and the witnesses for

Respondent No. 1 were not actually summoned. The petition for withdrawing was duly published in the *Calcutta Gazette*, dated the 5th May 1927 (page 927, Part I of the Gazette), and the notice of the petition for withdrawal having been filed was also sent for service to each of the respondents. In the petition for withdrawal, it was mentioned that Mr. Obaidulla had left India on or about the 16th April 1927 and that he had entered the service of His Majesty the Amir as an Engineer. Under Order 5, Rule 25 of the Civil Procedure Code, the notice was sent to Mr. Obaidulla to the address supplied by the petitioner, namely, "Mining Engineer, care of Secretary to His Majesty the Amir of Afganisthan, Kabul", under a registered cover and was posted in the Barisal post office on 7th May 1927. No acknowledgment of the receipt of the notice has been received, but we consider that having regard to the common course of business it may be presumed that the notice reached Mr. Obaidulla.

Nobody appeared to oppose the application for withdrawing the case. The grounds mentioned for the application is that Mr. Obaidulla is a material witness on behalf of the petitioner; that he left India on or about the 16th April 1927; that another witness Abdul Raschid was dead; that recently there was a bereavement in the family of the petitioner and that his witnesses being his relations were unwilling to appear as witnesses on account of such bereavement; that the petitioner and the opposite party No. 1 being relations, it was necessary in the interest of the family harmony that the case should not proceed further, and lastly that the expenses of the case would be very heavy.

The Commissioners thought that having regard to the grounds on which the prayer was based, it should be allowed and we accordingly permitted the petitioner to withdraw the case. The notice of this permission to withdraw was published in the *Calcutta Gazette* of the 9th June and no one applied to be substituted as petitioner in place of Haji Abdur Raschid Khan and to continue the case.

As the allegations in the petition of Haji Abdur Rashid Khan have not been substantiated by evidence, under Rule 45 (*1*), we beg to report that the returned candidate Maulvi Abdul Gofran has been duly elected.

The pleader for Maulvi Abdul Gofran did not press for costs and in permitting the petitioner to withdraw the case, the Commissioners made no order as to costs of either party. We beg to recommend that neither party should get costs. A witness for the petitioner appeared and was awarded Rs. 11-7 as costs. The petitioner's pleader agreed that this amount and four annas for transmission of the money, total Rs. 11-11, may be deducted from the amount deposited with Government as security. We recommend that this may be done, if there be no objection to this course being adopted. No bill was received from the Accountant, Bengal Secretariat, for the costs of publications in the *Calcutta Gazette*. If these costs as also the fees and travelling allowances of the Commissioners are payable out of the amount in deposit, then these may be paid out of the amount in deposit.

STATEMENT OF OBJECTS AND REASONS.

It is universally admitted that there is urgent necessity for a great improvement in the condition of primary education in Bengal as the present system makes but little impression on the illiteracy of the province. There is little, if any, definite organisation of the meagre resources that are now available; small schools springing up here and there have a fitful existence for a few years; children attending with no regularity usually leave school before any real progress towards literacy has been made. But above all one finds that the teachers are paid such a miserable pittance that this profession is taken up only as a last resort and by the poorest type.

2. To remedy this state of affairs, some attempts have already been made. In 1919 a Primary Education Bill, of which the author was Mr. Surendra Nath Ray of Behala, was passed, but it has been practically a dead letter, because the necessity of finding funds was left to the option of local bodies. Similarly, the scheme prepared by Mr. Biss under which Government pays half the cost—both capital and recurring—towards primary education in any town or Union has made little headway, because local bodies will not take the responsibility of finding even half the necessary funds. In the light of this experience it is clear that something much more drastic must be tried. Taxation cannot be left to the option of each local authority; it must be compulsory, if any step forward is to be taken for this vital work.

3. The present Bill was based in the first instance on the Madras Elementary Education Act, 1920 (Madras Act VIII of 1920), but differs from that statute in many important features. It is confined to the rural districts of Bengal because both the system of taxation and the system of control must be different in municipalities from that in the country, and even now any municipality, if it cares, has complete power of extending primary education under the Bengal Primary Education Act, 1919 (Bengal Act IV of 1919).

4. The objects of the Bill in brief are—

(1) to provide a central authority for each district to control primary education,

(2) to raise the funds necessary to go a long way—if not the whole way—towards universal primary education, and

(3) to provide for compulsory attendance at school.

5. Chapter II deals with the new controlling body—the District School Board—which has been composed to combine the greatest administrative efficiency with the best local village experience. This body will in the first instance be somewhat under official control, since the start of such a vast scheme would require the best administrative experience available. Nine years after the introduction of the Act it is expected that the scheme will be working in a more or less routine manner so that official control can be greatly relaxed.

6. The first duties of this Board will be to survey the situation and find out exactly how schools must be selected, constructed or enlarged so that the children of the district can have educational facilities in the most economical and efficient manner. Further, the Board will have to train teachers on a large scale for this work and this will have to be taken in hand from the start, because if such teachers are lacking, schools will be of little use. When the schemes and teachers are ready, schools must be erected and teachers selected and paid. From this brief survey of the preliminary work of the Board it is clear that all portions of the Act cannot be brought into use at one and the same time. In all probability there will be no imposition of the cess until at least a couple of years after the introduction of the Act, because it will take at least that time to prepare the schemes and train teachers. For this reason power has been taken to bring the Act into force in whole or in part on different dates in different districts.

7. In this province the greatest difficulty in connection with the advance of primary education has been the want of money; so if any advance has to be made in this direction new money must be found. It is proposed to do this by the levy of a primary education cess on exactly the same lines as the roads and public works cesses, the proceeds of which, amounting to about a crore per annum, will be earmarked for primary education. The cess proposed will fall mainly on the cultivator who will pay four pice in the rupee of rent and partly on the landlord who will pay one pice. As this cess does not touch those who derive income from trade, business or profession, a special section has been introduced to empower each district magistrate to assess people who have incomes derived from sources other than the cultivation of land, so that they too may bear their share of the new taxation.

8. Chapter V makes provision for an annual audit of the accounts of the District School Board and gives the auditor powers of disallowance and surcharge. The provisions of this chapter are largely taken from the English Public Health Act of 1875.

Compulsory education is dealt with in Chapter VIII which empowers Government to enforce the attendance at a primary school of all children except those that are exempted for well-defined reasons, while in answer to the widely-expressed public demand, provision has been made in Chapter IX for the possibility of religious instruction during school hours.

The other features of the Bill are explained in the Notes on Clauses.

NOTES ON CLAUSES.

Clause 1 extends the Bill to the whole of Bengal outside municipal areas and gives power to the Local Government to bring it into force in whole or in part in such districts and on such dates as the Local Government may direct.

Clause 2 consists of necessary definitions of which the most important is that of "child" which includes both boys and girls.

Clause 3.—By the constitution specified in this clause the non-official element will be at least two-thirds of the Board. The provisos in the clause ensure the diminution of official control when the public has had experience of the scheme.

Clause 4 gives the usual power to the Local Government to appoint members of the Board in default of election.

Clause 5 provides for an appointed President in the first instance and thereafter for one elected by the members of the Board.

Clause 7.—The first sub-clause prescribes how a member may resign and when the resignation shall take effect. The second states the term of office and the third provides for the continuance of the old members in office till the new ones have been actually appointed or elected.

Clause 8.—*Sub-clause (1)* gives the Government the usual power to remove members from the Board in certain circumstances while *sub-clause (2)* gives power to the Government to fix a period during which a person so removed shall not be eligible for re-appointment or re-election.

Clause 9 contains the usual provisions for providing for vacancies in the Board that may arise.

Clause 10 provides for the payment of travelling allowances to certain members of the Board and its establishment. As the majority of the members will come from villages in the interior it is essential that they should be given every facility for attending.

Clause 11.—The incorporation of a Board is necessary in order to carry out the purposes of the proposed Act.

Clause 12 empowers the President or the Vice-President to preside at the meetings, or in their absence, gives the members power to elect one of themselves to preside.

Clause 13 makes the meetings of the Board open to the public. This is intended to attract public interest in these meetings.

Clause 14 contains the usual provision that members shall not vote on matters in which they have a personal or pecuniary interest.

Clause 15 gives power to the President to carry on the executive work of the Board and provides for the delegation of his duties to the Vice-President. Provision has been made in sub-clause (*4*) for the exercise by the Vice-President of all the functions of the President when the latter's office is vacant.

Clause 16 gives power to the Board to make their own regulations for the ordinary conduct of business at meetings. This clause should be read with clause 59 (*2*) (*g*). The more important matters are provided in the latter clause and the rules framed thereunder must be made by Government. In the less important matters the Board is left to make its own regulations. Sub-clause (*2*) makes it clear that none of the regulations under this clause can override the rules framed by Government.

Clause 17 gives to the Commissioner of a Division power similar to that which he has with regard to municipalities to prevent any action by the Board in excess of powers conferred by law.

Clause 18 empowers the Government to order the Board to perform its duty in case of default; and if necessary to appoint a person to carry out such duty if the Board neglects to carry out the order of the Government.

Clause 19 gives the Government power, if the Board is not performing its duties under the Act, to bring into being a new Board. Sub-clause (*2*) provides for the interregnum between the supersession of the Board and the filling of the vacancies as a result of fresh nominations or elections.

Clause 20 lays down the duties of the District School Board in the matter of providing for the extension of primary education throughout the district, and in the control thereof either directly or through the agencies of Union Boards and Panchayats. Sub-clause (*1*) (*q*) makes provision for pensions and a provident fund for the establishment of the Board and teachers in primary schools.

Clauses 21 and 22 are intended to keep the Government in touch with the progress made in each district.

Clause 23 provides for the appointment of the necessary staff and its control by the District School Board.

Clause 24.—This follows the Bengal Cess Act very closely and the rate of cess prescribed will yield, roughly, one crore of rupees a year.

Clause 25.—This clause is intended to simplify the procedure of the realization of the primary education cess which will be paid automatically along with the road and public works cesses.

Sub-clause (2).—As in the case of the existing cesses the zamindars will pay the entire amount of the cess less the usual deduction of one pice for every rupee of the revenue.

Sub-clauses (3) and *(4)* provide for payments by the intermediate tenure-holders and the cultivating raiyat.

The cess has been distributed between various parties on two principles: (*1*) on the benefit received and (*2*) on the ability to pay. Admittedly, practically the whole benefit will be received by the cultivators of Bengal, while, generally speaking, the cess will press less heavily on them than on the tenure-holders or zamindars. The amount of deduction to which the zamindars and tenure-holders are entitled is based on the portion of the total cess paid by them.

Clause 26.—The provisions of this clause, read with those of clause 32, ensure that the money collected will not be diverted to any purpose other than that of primary education.

Clause 27.—This is a general clause bringing the administration of the new cess within the provisions of the existing Cess Act, 1880.

Clause 28.—As the Cess Act, 1880, only affects the owners or occupiers of real property, it was necessary to bring in some provision to ensure that those whose incomes were derived from trade, business or profession, should not be exempted. For this purpose a summary procedure is proposed, based on the Chaukidari and Union Board assessment. No appeal is allowed from the assessment of the district magistrate but the amount of tax is limited under this clause to Rs. 100 per annum. The amount of tax so assessed shall be communicated to the Union Board or Panchayet for realization just as a precept is sent to the parish council in England by one of the superior authorities.

Sub-clause (4) empowers the Union Boards or Panchayats to recover arrears as in the case of the existing rates. *Sub-clause (5)* should stimulate collections as it allows 15 per cent. of the amount realised to be retained by the local bodies, while *sub-clause (6)* provides that the money will be safely lodged with the Primary Education Fund of the district.

Clause 30 enumerates the various sources of income which may be credited to the District Primary Education Fund including the various Government grants, the proceeds of the primary education cess, and the tax imposed under clause 28 and all other sums that may be credited to this Fund under the provisions of this Bill.

Clause 31 states the objects on which the Fund may be spent. By putting in the forefront the payment of interest upon loans raised for the purposes of the Act, the Board should be able to raise loans when necessary at a very low rate of interest.

The next two payments are connected with the collection of the cess, while the fourth ensures that the all-important work of audit shall not be hampered for want of funds.

Clause fifthly provides for the Board's establishment and the provident fund contributions for all the employees whether clerks or teachers.

Clause sixthly allows for the payment of travelling allowances to the members of the Board and its establishment which will be essential if the local representatives are to take a real part in the working of the Board.

All the above items are for comparatively small sums of money, while the main expenditure will be incurred under clause *seventhly* for the cost of construction, equipment and maintenance of primary schools.

Clause 32.—This clause provides safeguards against the misapplication of the money by ensuring that all sums are promptly credited to the Fund and that payments can be made only on a regular procedure.

Clause 33.—This clause provides for a regular budget being submitted every year so that the Government can see that no Board is misapplying its finances.

Clause 34.—This clause and the succeeding clauses up to 43 follow the provisions of the English Public Health Act of 1875 and have been inserted to ensure that the Primary Education Fund can be diverted from its real object only at considerable personal risk of the person responsible for that diversion—whether he be a Government servant or not.

This clause will enable the accounts of each Board being kept in a uniform manner and in consonance with the general finances of the province.

Clause 35 provides for an annual audit.

Clause 36.—To render the audit effective, it is essential that the accounts should be open to the inspection of the public so that any matters about which there are doubts or suspicions can be brought before the auditor. Sub-clause (*2*) will ensure that the accounts are made up to date.

Clause 37 contains another provision to ensure the publicity of the audit

Clause 38. Sub-clause (1) enables the auditor to call for any document that may be necessary, and gives him power to make his inquiries into the questions that may arise during the audit effective. *Sub-clause (2)* contains a sanction which will lend force to his directions.

Clause 39 will enable any person to bring any objection about the accounts before the auditor.

Clause 40.—Under this clause the auditor shall not only decide whether any money has been properly spent or not, but, if it has been wrongfully spent, he will go a step further and ascertain who is to blame and for what sum he is liable in connection with this action. Under sub-clause (*2*) the auditor is given similar powers with regard to those who have caused loss to the Board by failing to credit any sums that are due to the Primary Education Fund.

Clause 41.—Against the orders of the auditor one appeal will lie and that to the Commissioner of the Division. As this officer knows the circumstances of the district better than any other, he seems to be a suitable person to decide such appeal. Under sub-clause (*2*) a discretionary power is given to him of condoning offences. In England such power is vested in the Ministry of Health and is very widely exercised in cases where genuine mistakes have arisen and there has been no deliberate dishonesty or gross negligence. Especially on the introduction of the Act when people are still strange to the new procedure and rules for expenditure, it is necessary that the Commissioner of the Division should have wide powers of making allowances for inexperience, etc.

Clause 42.—Under this clause the procedure has been given for the payment of sums certified by the auditor to be due to the District Primary Education Fund, while sub-clause (*2*) provides for a speedy remedy against all persons who make default of payment.

Clause 43 makes certain that no delay will occur in bringing the results of the audit to the notice of both the Government and the District School Board.

Clause 44 gives power to the District School Board to delegate its powers to Union Boards and Chaukidari Panchayats as their agents for carrying on the work in connection with Primary Education within the area under their control. As the Union Boards and Panchayats vary very greatly in quality, it is clear that such discretion must be left with the central authority in each district. By this means also the funds are concentrated and accounts simplified. Such delegation will doubtless be used as far as possible but it is essential, especially at the start of this scheme, to keep control over procedure within the district as simple and concentrated as possible.

Clause 45.—The incorporation of a Panchayat is necessary under the proposed Act for the purpose of carrying out its functions.

Clause 46 will enable Union Boards to transfer property or contract under certain prescribed conditions.

Clause 47.—This clause enables any school to apply for recognition as a primary school under the Act and empowers schools to appeal to a higher authority if they are dissatisfied with the decisions of the Board.

Sub-clause (4) will enable the Board to recognise at once without waiting for applications all the satisfactory existing primary schools.

Clause 48 makes provision for primary schools, under private arrangement, to obtain grants-in-aid which will enable them to develop their work on their own individual lines.

Clause 49.—Before declaring primary education compulsory within an area, Government must be satisfied that there are schools and teachers sufficient for all the children in the area concerned and must consult the local authority in the area.

Clause 50.—Fees cannot be levied upon children who are compelled by law to attend school and this clause merely enforces that principle.

Clause 51.—Under this clause Government is given the power of exempting persons or classes of persons from the compulsion of sending their children to school. Presumably girls might be exempted at first, while boys would have to attend.

Clause 52.—This lays the duty on the guardian of sending his child to school.

Clause 53 enumerates the cases in which a guardian may be reasonably exempted from taking action under clause 52.

Of these exemptions especial notice should be taken of sub-clause (*6*). As the children are very largely employed during the special periods of agricultural operations and as such periods vary not only from district to district but within the district, it is necessary to empower the Board to grant exemptions so that all, if necessary, may help their families at this important time.

Clause 54.—This clause puts the responsibility of enforcing attendance on the Union Boards or Panchayats concerned.

Clause 55 prescribes the procedure by which the Attendance Committee can bring cases of default on the part of guardians to the notice of the magistrate. Under sub-clause (*2*) of this clause the magistrate can direct the attendance of a child at school if he is satisfied that the complaint is well founded.

Clause 56.—This clause takes us a step further when if the action taken both by the Attendance Committee and by the magistrate has failed to force the guardian to present his child at the school, the magistrate can convict the guardian and sentence him.

Clause 57.—In this form and safeguarded by the proviso, it is hoped to provide religious instructions in schools for young children without emphasising religious differences.

Clause 61 contains the usual provision about indemnity.

Clause 62 is the usual clause collecting in one place the various provisions relating to the rule-making powers.

Clause 63 and the Schedule contain the consequential amendments necessary in other enactments.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill to amend section 96 of the Code of Civil Procedure, 1908, for a certain purpose.

WHEREAS it is expedient to amend section 96 of the Code of Civil Procedure, 1908, for the purpose hereinafter appearing; It is hereby enacted as follows :— V of 1908.

Short title.

1. This Act may be called the Code of Civil Procedure (Amendment) Act, 192 .

Amendment of section 96, Act V of 1908.

2. To section 96 of the Code of Civil Procedure, 1908, V of 1908. the following sub-section shall be added, namely :—

"(4) No appeal shall lie from the decision of any Court the pecuniary limits of whose jurisdiction exceed two thousand rupees, or of any other Court specially designated in this behalf by the Local Government, determining under section 47 an objection by a judgment-debtor to the execution of a decree for money on the ground that the decretal amount has been paid or adjusted in whole or in part, if the amount claimed to have been paid or adjusted does not exceed, in the case of such first-mentioned Court, five hundred rupees, or, in the case of such other Court, two hundred rupees."

STATEMENT OF OBJECTS AND REASONS.

In paragraph 2 of Chapter 30 of their Report the Civil Justice Committee recommend *inter alia* that in cases where orders in execution of money decrees are passed under section 47 of the Code of Civil Procedure, 1908, on pleas by the judgment-debtor that payment or part payment had been made, there should be no appeal from such orders when passed by specially empowered munsifs or corresponding officers up to a limit of Rs. 200, and by Subordinate Judges or corresponding officers up to a limit of Rs. 500. The Bill seeks to give effect to this recommendation by an amendment of section 96 of the Code. As the Code, however, does not provide for the classification of subordinate Courts, a limit of Rs. 2,000 has been adopted to indicate the difference between the two classes of Courts with final jurisdiction.

DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary forecast of the *Bhadoi* crops of Bengal, 1927-28.

(NOTE.—On an average of the five years ending 1925-26, the area under autumn rice in Bengal has represented some 6·1 per cent of the total area under rice in British India.)

Character of the season.—Conditions were generally favourable for preparatory tillage and early sowings. The rainfall in April was generally above the normal in East Bengal while in West and North Bengal it was moderate. Germination and growth of the crops were satisfactory but slight damage was caused by drought in some tracts, notably in the districts of Nadia, Murshidabad, Jessore, Burdwan, Birbhum, Howrah, Malda, Faridpur, Noakhali and the Chittagong Hill Tracts. Later on alternate rain and sunshine helped the final development of the crops. On the whole a satisfactory crop is expected for the Province.

Acreage.—The total area sown with the different *bhadoi* crops this year is reported to be 5,828,900 acres, as against 5,713,900 and 5,762,400, acres, respectively, in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,069,400 acres, as against 4,960,600 and 5,015,400 acres reported respectively in the corresponding and final forecasts of last year.

Outturn.—According to the District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 76 per cent. of the normal as against 74 and 78 per cent. reported, respectively, in the corresponding and final forecasts of last year. The autumn rice is reported to yield an outturn of 75 per cent. of the normal for the Province this year as against 74 and 79 per cent. reported, respectively, in the corresponding and final forecasts of last year. I consider this figure for autumn rice to be an under-estimate and that the outturn of the latter crop will not fall short of 85 per cent. of the normal this year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Winter Rice Crop of Bengal, 1927-28.

(NOTE.—On an average of the five years ending 1925-26, the area under winter rice in Bengal has represented some 18·6 per cent of the total area under rice in British India.)

Character of the season.—At the beginning of the season the weather was generally favourable for tillage operations for broadcast paddy. These commenced in the usual time. Conditions were also favourable from March to May, when sowing was in progress and a large area was brought under cultivation in East and North Bengal districts. Good rainfall in May helped preparatory operations for transplanted paddy and its sowing in seedbeds was done in favourable conditions at first. Further progress was slow on account of insufficient rainfall in June. In July transplantation was commenced in lower lands, but satisfactory progress could not be made on higher tracts on account of lack of rain. In Midnapore, however, heavy rain caused floods and damaged the crops in Contai subdivision. In August the rainfall was again in general defect, and transplantation was suspended, notably in parts of Midnapore, Nadia, Burdwan, Murshidabad, Birbhum, Rajshahi, Bogra, Rangpur, Dinajpur, Malda, where, in some parts, seedbeds were destroyed. In other tracts progress was good owing to local rain. As a result of the weak monsoon there is at present a reduced area, but recent favourable rainfall will appreciably diminish the deficiency. In the important district of Bakarganj a normal crop is expected. On the whole the outlook of broadcast paddy is promising. That of transplanted rice is fair, and perhaps it depends to a greater extent than usual on the future progress of the monsoon.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 13,193,900 acres as compared with 13,943,100 and 14,448,300 acres (revised) in the corresponding and final forecasts of last year. The decrease is attributed to want of sufficient rainfall at the time of transplantation.

Outturn.—From the summary of the district returns appended, it will be seen that Bankura and Bakarganj report a normal crop, twelve districts expect 80 to 92, one district 75 and the rest below 70 per cent. of the normal. According to the above estimates, the provincial outturn works up to 79 per cent. as against 87 and 85 per cent. of the normal estimated respectively in the first and final forecasts of last year.

Hooghly ...	352,800	197,100	196,800	96	88	Third week of June Late.	Middle of July. Late.	The decrease in area is due to unfavourable weather conditions and to late transplantation. Drought has retarded the transplantation and has stunted the growth of the crops. Damage to the extent of about 4 annas in the Sadar subdivision and 8 annas in the Arambagh subdivision has been done to the crop by drought. It has also appreciably damaged the crop in the Serampore subdivision. The outturn is anticipated to fall much below the normal.

Receipts.—The total receipts for the year are Rs. 45·66 lakhs against a budget estimate of Rs. 39·71 lakhs. The increase is due mainly to receipts under duty or jute, rent, rent charges and rebate of interest on debenture loans in excess over the annual budget estimate.

Expenditure.—The expenditure for the year was Rs. 25·88 lakhs against a budget provision of Rs. 33·22 lakhs. The decrease Rs. 7·34 lakhs is principally due to savings against the provision for expenditure on interest on Sterling Debenture Loans, Discount and Loss of Exchange on the Year's Loan, establishment and other charges.

The closing balance on Revenue Account shows a surplus of Rs. 3,24,45,450-10-9, of which a sum of Rs. 2,32,31,040-15-9 has been spent on Capital Account to meet payments in excess of Capital Receipts. The net balance of Rs. 92,14,409-11-0 was held as follows :—

CHAS. A. BENTLEY, M.B., D.P.H., D.T.M. & H., *Director of Public Health, Bengal.*

CALCUTTA, *the 16th September 1927.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for August 1927.

I. **Character of the season.**—During the month under review the rainfall was markedly in defect of the normal throughout the Presidency excepting in Midnapore only, where it was a little in excess of the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Transplantation of winter paddy was delayed on a wide scale for want of adequate rain and the progress was below normal. Harvesting of autumn paddy was nearly completed in East and North Bengal. Cutting of jute was proceeding but lack of sufficient water for steeping and washing was generally felt.

III. **State of standing crops.**—Excepting transplanted winter paddy in certain tracts the condition of standing crops was generally fair.

IV. **Prospects and probable outturn.**—The prospects of deep water paddy, sugarcane and other standing crops were promising. A satisfactory crop is expected for autumn rice.

V. **Damage to standing crops.**—Damage by drought and insect pests is reported from places in some West and North Bengal districts.

VI. **Condition of agricultural stock.**—During the month, cattle-disease was reported from eleven districts of the province and also from the States of Cooch Behar and Tripura. Rinderpest in an epidemic form was reported from Bankura during the early part of the month.

VII. **Failure of pasturage and fodder.**—Supply of fodder was reported to be adequate during the month.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in eleven districts, fell in six and remained stationary in the rest of the province. It varied from 7 seers per rupee at Chittagong to 4¼ seers per rupee at Mymensingh.

IX. **Condition of agricultural population.**—The condition of agricultural population was fair on the whole.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 14th September 1927.

Summary.—During the week the rainfall was generally light to moderate. Transplantation of winter paddy is being facilitated by the recent rain, but more rain is still needed for the operation and for the steeping of jute in places, especially in some West and North Bengal districts. Harvesting of autumn paddy is nearing completion and that of jute on highland continues in full swing. The outlook of standing crops is generally fair except in some West Bengal districts and Malda where the condition is not much satisfactory. Distress continues to prevail in parts of the Rampurhat subdivision of Birbhum where agricultural and land improvement loans are being distributed and test relief works have been opened and 768 persons are working daily. The average price of common rice for the province has risen by about 0·81 per cent. as compared with that of the previous week.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 21st September 1927.

Summary.—During the week the rainfall was generally light excepting in parts of some North and East Bengal districts where it was moderate. Transplantation of winter paddy seedlings is nearing completion, but more rain is still needed for the operation and for the steeping of jute in places, especially in some West Bengal districts. Harvesting of autumn crops is almost finished. The outlook of standing crops is generally fair except in some West and North Bengal districts. There has been a general deficiency of rain in the province, and prospects of the paddy crops depend to a critical extent on suitable rainfall in the next six weeks, *i.e.*, till the middle of November. In regard to West Bengal and North Bengal distress continues to prevail in parts of Birbhum, Malda and Dinajpur. Test relief works have been opened at Mororoi, Birchandrapur and Nalhati in Birbhum where 384, 1,260 and 333 persons respectively are working; and also at Patnitola and Porsha police-stations in Dinajpur where 1,619 persons are working daily. The average price of common rice for the province has risen by about 0·71 per cent. as compared with that of the previous week.
